Executive Summary

This report provides information on known imported products related to the response to COVID-19, drawing on lists of such goods compiled by the World Customs Organization, World Trade Organization, and the International Trade Administration at the U.S. Department of Commerce. It was prepared in response to a letter from the U.S. House of Representatives Committee on Ways and Means and the U.S. Senate Committee on Finance (the Committees) requesting that the Commission conduct a factfinding investigation to identify imported goods related to the response to COVID-19, their source countries, tariff classifications, and applicable rates of duty. Any updated data runs conducted by the Commission through June 30, 2020 will consider additional products as the response to COVID-19 develops and that may have been proposed for inclusion in written submissions.¹ The Commission will post any relevant updated data runs on its website.

The report provides information for 112 HTS 10-digit statistical reporting numbers² valid in 2020. Due to the fact that many HTS 10-digit statistical reporting numbers are basket categories that cover more than one product, data at the HTS 10-digit statistical reporting number level may include a mix of COVID-19 related and non-COVID-19 related goods. For this reason, this report does not summarize import value totals as such totals would not solely reflect COVID-19 related goods. The following summarizes information on the HTS 10-digit statistical reporting numbers presented in this report.

Overview of 2020 HTS 10-digit statistical reporting numbers included in the report

	Number of HTS numbers
Number included by category	
COVID-19 test kits/testing instruments	6
Disinfectants and sterilization products	9
Medical imaging, diagnostic, oxygen therapy, pulse oximeters, and other equipment ³	22
Medicines (pharmaceuticals)	20
Non-PPE medical consumables and hospital supplies	19
Personal protective equipment	27
Other	9
Total number of 2020 HTS 10-digit statistical reporting numbers included in this report	112

Column 1-general duty rates

	Number of HTS numbers	Share of 112 HTS covered in the report (unless otherwise noted) (percent)
Number of HTS 10-digit statistical reporting numbers that are duty-free under column 1-general rates of duty (normal trade relations or NTR)	76	68%
Number of HTS 10-digit statistical reporting numbers subject to duties under column 1-general rates of duty	36	32%
Of which there is a column 1-special duty rate of free for one or more countries	36	100%
		(of 36 dutiable items)
Total number of 2020 HTS 10-digit statistical reporting numbers included in this report	112	100%

Additional duties

	Number of HTS numbers	Share of 112 HTS covered in the report (unless otherwise noted) (percent)
Number of HTS 10-digit statistical reporting numbers not subject to additional (section 301) duties ⁴	57	51%
Number of HTS 10-digit statistical reporting numbers subject to additional (section 301) duties	55	49%
Of which subject to 25 percent additional duties	39	35%
Of which subject to 7.5 percent additional duties	16	14%
For which there is a whole or partial duty exclusion ⁵	28	51%
		(of 55 items subject to 301 duties)
Of which there is a partial (only some products within the HTS 10-digit number) duty exclusion	15	27%
		(of 55 items subject to 301 duties)
Of which there is a whole (entire HTS 10-digit number) duty exclusion	13	24%
		(of 55 items subject to 301 duties)

¹ During this investigation, the Commission received written submissions from interested parties. Due to the relatively short timeframe in which this report was produced, the Commission was unable to incorporate this information into the report. The Commission will consider the information contained in the submissions for inclusion in updates of this report to the extent practicable.

² Two additional statistical reporting numbers that expired prior to 2019 were also included in the data set for the purpose of providing time series data. They are not included in these summary statistics in order to avoid duplication.

³ Oxygen therapy equipment and pulse oximeters are broken out separately in the report, but are a subset of medical devices so are included with that group here.

⁴ Section 301 duties are the only additional duties set forth in the HTS that apply to the goods covered in this report.

⁵ All exclusions are scheduled to expire between July and October 2020.

Acronyms	Definition
CBP	U.S. Customs and Border Protection
CROSS	Customs Rulings Online Search System
EDIS	Electronic Document Information System
HS	International Harmonized Commodity Description and Coding System
HTS	Harmonized Tariff Schedule of the United States

PA	United States-Panama Trade Promotion Agreement Implementation Act
PE	United States-Peru Trade Promotion Agreement Implementation Act
SG	United States-Singapore Free Trade Agreement

Introduction

This report provides information on imported products related to the response to COVID-19, the disease caused by the novel coronavirus. On April 7, 2020, the U.S. International Trade Commission (Commission) received a letter from the U.S. House of Representatives Committee on Ways and Means and the U.S. Senate Committee on Finance (the Committees) requesting that the Commission conduct a factfinding investigation to identify imported goods related to the response to COVID-19, their source countries, tariff classifications, and applicable rates of duty. The Committees specifically requested that the Commission provide (1) the 10-digit Harmonized Tariff Schedule of the United States (HTS) statistical reporting number for each article; (2) its legal description; (3) its general duty rate; (4) any special or additional rates of duty imposed on the article, the dates on which the rates were imposed, and the authorities under which they were imposed; (5) whether any such duties have been suspended and, if so, the date of suspension, as well as how long the suspension is scheduled to last; (6) the total rate of duty imposed on the article, including any special or additional rate of duty; and (7) the major countries of origin for the article, and the value of imports for the article from each country for the years 2017–19. The Committees also requested that the Commission provide a plain-language description or product examples for each good. As requested, the Commission will post any relevant updated data runs on its website through June 30, 2020.

Identification of COVID-19 Related Goods

The request letter asks the Commission to identify imported goods related to the response to COVID-19 (“COVID-19 related goods”). The Commission used the World Customs Organization (WCO) “HS Classification Reference List,” developed in consultation with the World Health Organization (WHO), as the starting point for developing this report on COVID-19 related goods. The WCO list does not include pharmaceuticals, so the Commission added a subset of codes for pharmaceuticals taken from the World Trade Organization (WTO) “Trade in Medical Goods in the Context of Tackling COVID-19,” for purposes of this report. The pharmaceutical products on the WTO list are not specific to those used in response to COVID-19, so a subset of pharmaceuticals from this list was selected, based on staff research, to identify the general categories of products currently being tested or used in response to COVID-19 and secondary infections or under development for use in the response (e.g., immunological products and vaccines). Some pharmaceutical products included in this report may not end up being used in the response, and there may be other products developed for the response that are not currently included in this report. The Commission also included products in this report based on input from the Industry and Analysis division of the International Trade Administration at the U.S. Department of Commerce (USDOC) and other U.S. government agencies. Certain parts, particularly for medical devices on the list, were included when those products are dedicated to use in the finished goods on the list and specified in the HTS (e.g. “printed circuit assemblies for electrocardiographs”).

The WCO and WTO lists provide information on the classification of goods using the International Harmonized Commodity Description and Coding System (HS), which identifies a unique 6-digit code for each good. The products included in this report, therefore, were further refined to determine the 10-digit HTS number (statistical reporting number for U.S. imports) under which each COVID-19 related good is classified. This allowed for the incorporation of import data and tariff rates into the report. The Commission used the Customs Rulings Online Search System (CROSS) and input from Commission staff and government agencies, such as the USDOC, to determine the relevant 10-digit HTS number.

Trade Data

The data in this report are from official statistics of the USDOC U.S. Census Bureau/USITC DataWeb. All data on trade flows presented in this report are based on U.S. imports for consumption in terms of U.S. dollar value. For each item, table 2 shows the value of imports from the top five sources, and the value of imports from the rest of the world combined from 2017 to 2019. Therefore, table 2 is not a comprehensive list of imports from a particular country for all COVID-19 related goods, and compiling aggregate totals by country is not possible from the existing data set. Further, any totals compiled from the subset of goods in this report may not reflect patterns in U.S. imports in broader categories of goods (such as trade by country for all pharmaceutical products in HTS chapter 30). In addition, ranking sources of imports by other metrics, such as volume, may result in a different ranking for certain goods. For example, China is the third largest supplier of “other medicaments” in 3003.90.0100 by value, but largest by volume.

Many of the HTS 10-digit numbers in this report encompass goods not related to the response to COVID-19. Therefore, the data in this report may substantially overstate the value of U.S. imports of COVID-19 related goods. COVID-19 related goods may be included in 10-digit statistical reporting numbers that reflect a large basket category of products, or may be composed entirely of one COVID-19 related good. What is presented in this report is the lowest level (i.e. most disaggregated) statistical break out available for the relevant goods. Accordingly, the dollar values reported at the 10-digit statistical reporting number level that are included in this report represent the lowest level of data available that is believed to contain U.S. trade in COVID-19 related goods. The table below provides examples of two products, one in which the HTS 10-digit number does accurately capture U.S. imports of a COVID-19 related product (medical gloves) and one in which COVID-19 related goods, including key products like N95 masks, are a subset of a large basket category. Since isolating all U.S. imports of COVID-19 related goods is not possible at the lowest available statistical classification scheme, this report does not provide estimates for total COVID-19 related U.S. imports.

HTS 10-digit statistical reporting number	Imports at the "parent" HTS 10- digit statistical reporting number in 2019 (\$)	COVID-19 related product examples	Examples of other products included in the 10-digit statistical reporting number	What is the share of COVID-19 trade for a given product within its HTS 10-digit number?
---	---	-----------------------------------	--	---

Medical gloves, of vulcanized rubber other than hard rubber, not elsewhere specified or included (4015.19.0550)	1,372,432,059	Medical gloves	None	Since all trade within this HTS 10-digit number is medical gloves, 100 percent of imports could be deemed to be COVID-19 related. However, medical gloves may also be imported in other statistical reporting numbers, as indicated in table 1.
Other made-up articles, not elsewhere specified or included (6307.90.9889)	3,213,704,974	Textile face-masks (including N95 particulate respirators), without a replaceable filter or mechanical parts, including surgical masks and disposable face-masks made of non-woven textiles	Textile bins, scouring pads, mesh fencing, gift card bags, pillow shells, certain baby blankets, ironing board covers, swim vests, textile produce bags, textile ankle braces, textile decorative pumpkins, polyester bottle straps	Unknown. N95 masks, which are only one possible COVID-19 related product, likely represented a small share of trade in this HTS 10-digit number in 2019.

HTS 10-digit Statistical Reporting Numbers

The HTS 10-digit statistical reporting numbers and tariff information in this report are based on the March 2020 (revision 7) version of the HTS. However, in the two instances where HTS numbers covered by the report changed between 2017 and March 2020, prior iterations of their HTS codes were included when compiling time-series trade data. HTS 3926.90.9990 was previously covered by HTS 3926.90.9996 until July 2018, and HTS 3824.99.9297 was previously covered by HTS 3824.99.9295 until January 2018. In both of these instances, the trade that was reported under the old numbers encompassed a broader range of products and is not directly comparable with trade in goods under the new HTS numbers.

The HTS 10-digit statistical reporting number description here is an adaption of the classification schema of the HTS as maintained on the Commission's website (link below). Nothing in this document should be construed as providing classification guidance to the importing community. Importers or their agents should contact the U.S. Customs and Border Protection (CBP) of the U.S. Department of Homeland Security with questions regarding the proper classification of any imports, whether COVID-19 related or not. CBP maintains the sole statutory authority in the U.S. government relating to legal interpretations of the HTS, maintains a database of all legally binding classification rulings or advice, and provides guidance to importers on classification issues. (A link to CBP information on COVID-19 related imports appears below.)

Product Categories and Examples

This report groups COVID-19 related goods into the following eight product categories:

- COVID-19 test kits/testing instruments: refers to the chemical reagents and instruments used in diagnostic testing for COVID-19.
- Personal protective equipment (PPE): refers to protective materials that are worn. These goods are a subset of medical consumables and hospital supplies.
- Disinfectants and sterilization products: refers to the various chemically based sanitizing agents.
- Oxygen therapy equipment and pulse oximeters: refers to devices that provide respiratory support to distressed patients.
- Medical imaging, diagnostic, and other equipment: refers to devices that can facilitate the diagnosis of various medical conditions and/or assist in the administration of treatment.
- Non-PPE medical consumables and hospital supplies: refers to a broad spectrum of basic medical supplies including syringes, needles, catheters, and adhesives that are used in healthcare facilities. Unlike PPE, these types of consumables are not worn.
- Medicines (pharmaceuticals): refers to medications used to diagnose, cure, treat, or prevent disease.
- Other: a category that includes transportation for patients, mobile clinics, and furniture used in a healthcare setting.

The report also provides product examples (e.g., N95 respirators) for each HTS 10-digit number on table 1 and table 2. These examples are not necessarily a comprehensive list of all COVID-19 related goods in each HTS 10-digit number.

Duty Rates

Duties shown here are “column 1” general duty rates (normal trade relations), special duties, and additional duties. Section 301 duties are the only additional duties set forth in the HTS that apply to the goods in table 1. In listing the total rate of duty, the minimum and maximum rates of duty are provided. The rate of duty may vary depending on whether a product is eligible for duty-free entry under a free trade agreement or other duty preference provision, and whether section 301 duties apply to the good. The ranges do not take into account section 301 product exclusions, as these exclusions are temporary. A list of symbols for special duty rates is included in a separate table.

Section 301 Exclusions

This report includes information for all section 301 exclusions for each HTS 10-digit number, and does not separate exclusions that apply to COVID-19 related goods and non-COVID-19 related goods. However, full product descriptions are provided for each exclusion in table 3.

Antidumping and Countervailing Duties

Antidumping and countervailing duty rates may also apply to some COVID-19 related products from certain countries. These duties are not included in the HTS and are not provided in this report. For example, chlorinated isocyanurates, which are subject to antidumping and countervailing duties (covering HTS 3808.94.5000), are used in disinfectants that meet U.S. Environmental Protection Agency criteria for use against COVID-19. A complete list of antidumping and countervailing duty orders in place for all goods is on the Commission’s website at:

https://www.usitc.gov/sites/default/files/trade_remedy/documents/orders.xls

Written Submissions

During this investigation, the Commission received several written submissions, which are available via the Commission’s Electronic Document Information System (EDIS) at the link below. Due to the relatively short timeframe in which this report was produced, the Commission was unable to incorporate this information into the report. The Commission will consider the information contained in the submissions for inclusion in updates of this report to the extent practicable.

<https://edis.usitc.gov>

Sources Consulted

Trade data and duty rates are compiled by the Commission from the HTS, official statistics of the USDOC U.S. Census Bureau (accessed April 15, 2020), and the Office of the U.S. Trade Representative *Federal Register* notices. As discussed above, the list of goods included here is based on the WCO list and certain pharmaceuticals on the WTO list (see source information below), as well as input from the Industry and Analysis division of the International Trade Administration at the USDOC and other U.S. government agencies.

Table	Items Included
Table 1	<ul style="list-style-type: none"> • The HTS 10-digit statistical reporting number for each COVID-19 related article; • A broad category for each product; • The description for each HTS 10-digit number; • Examples of each product within each HTS 10-digit number; • The general or normal trade relations duty rate; • Any special or additional rates of duty imposed on the article, the dates on which the rates were imposed, and the authorities under which they were imposed; • The total rate of duty imposed on such article, including any special or additional rate of duty; and • The import value at the HTS 10-digit level for the years 2017–19. These data may overstate the value of COVID-19 related imports, as many HTS 10-digit statistical reporting numbers also include non-COVID related products.
Table 2	<ul style="list-style-type: none"> • The top 5 countries of origin during 2017–19 combined, and the value of imports from these countries and the rest of the world annually during 2017–19. These data may overstate the value of COVID-19 related imports as, for many HTS 10-digit numbers, they include non-COVID related products. • When filtering by country, table 2 will only show the HTS numbers where the country is in the top 5, and will not be a comprehensive list of imports for a particular country for all products.
Table 3	<ul style="list-style-type: none"> • A list of section 301 duty exclusions in each HTS 10-digit number for which there is an exclusion, the date of publication of the exclusion, the effective date of the exclusion (generally retroactive), the date the exclusion is scheduled to expire, and the description for the exclusion.
Appendix A	<ul style="list-style-type: none"> • Request letter
Appendix B	<ul style="list-style-type: none"> • <i>Federal Register</i> notice

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level			
Record ID	HTS-10	Category for subset of COVID-19 related goods in the HTS-10	HTS-10 statistical reporting number description
1	2207.10.6090	Disinfectants and sterilization products	Ethyl alcohol, undenatured, of an alcoholic strength by volume of 80 percent volume or higher, for nonbeverage purposes, excluding for fuel use
2	2208.90.8000	Disinfectants and sterilization products	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80 percent volume, not elsewhere specified or included
3	2804.40.0000	Non-PPE medical consumables and hospital supplies	Oxygen
4	2847.00.0000	Disinfectants and sterilization products	Hydrogen peroxide, whether or not solidified with urea
5	3002.13.0000	Medicines (Pharmaceuticals)	Immunological products, unmixed, not put up in measured doses or in forms or packings for retail sale
6	3002.14.0000	Medicines (Pharmaceuticals)	Immunological products, mixed, not put up in measured doses or in forms or packings for retail sale
7	3002.15.0000	COVID-19 test kits/testing instruments	Immunological products, put up in measured doses or in forms or packings for retail sale
8	3002.19.0000	Medicines (Pharmaceuticals)	Blood fractions, not elsewhere specified or included
9	3002.20.0000	Medicines (Pharmaceuticals)	Vaccines for human medicine
10	3003.10.0000	Medicines (Pharmaceuticals)	Medicaments (excluding goods of 3002, 3005, or 3006) containing penicillins or derivatives thereof, or streptomycins or their derivatives
11	3003.20.0000	Medicines (Pharmaceuticals)	Medicaments containing other antibiotics (excluding penicillins and streptomycins)
12	3003.60.0000	Medicines (Pharmaceuticals)	Other medicaments containing antimalarial active principles described in subheading note 2 to this chapter, not in measured doses
13	3003.90.0100	Medicines (Pharmaceuticals)	Other medicaments (excluding goods of heading 3002, 3005 or 3006) consisting of two or more constituents which have been mixed together
14	3004.10.1020	Medicines (Pharmaceuticals)	Penicillin G salts (singles) not for veterinary use
15	3004.10.1045	Medicines (Pharmaceuticals)	Combination antibiotics containing penicillin G
16	3004.10.5045	Medicines (Pharmaceuticals)	Combination antibiotics containing penicillins or derivatives thereof, with a penicillanic acid structure, or streptomycins or their derivatives, not elsewhere specified or included
17	3004.10.5060	Medicines (Pharmaceuticals)	Combination antibiotics, not elsewhere specified or included
18	3004.20.0020	Medicines (Pharmaceuticals)	Erythromycin, singles or in combination with other antibiotics, not for veterinary use
19	3004.20.0030	Medicines (Pharmaceuticals)	Tetracycline, singles or in combination with other antibiotics, not for veterinary use
20	3004.20.0060	Medicines (Pharmaceuticals)	Medicaments containing other antibiotics, not elsewhere specified or included
21	3004.49.0060	Medicines (Pharmaceuticals)	Medicaments consisting of mixed/unmixed products for therapeutic or prophylactic use, primarily affecting the eyes, ears or respiratory system
22	3004.60.0000	Medicines (Pharmaceuticals)	Other medicaments containing antimalarial active principles described in subheading note 2 to this chapter, in measured doses
23	3004.90.1000	Medicines (Pharmaceuticals)	Medicaments containing antigens or hyaluronic acid or its sodium salt
24	3004.90.9210	Disinfectants and sterilization products	Anti-infective medicaments put up in measured doses or forms or packings for retail sale, not elsewhere specified or included

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level			
Record ID	HTS-10	Category for subset of COVID-19 related goods in the HTS-10	HTS-10 statistical reporting number description
25	3004.90.9285	Medicines (Pharmaceuticals)	Medicaments primarily affecting the eyes, ears or respiratory system, put up in measured doses or in forms or packings for retail sale, not elsewhere specified or included
26	3004.90.9290	Medicines (Pharmaceuticals)	Medicaments consisting of mixed/unmixed products put up in measured doses or in forms or packings for retail sale, not elsewhere specified or included
27	3005.10.5000	Non-PPE medical consumables and hospital supplies	Adhesive dressings and other articles having an adhesive layer, not coated or impregnated with pharmaceutical substances
28	3005.90.5090	Non-PPE medical consumables and hospital supplies	Other wadding, gauze and similar articles (non-adhesive, not coated or impregnated with pharmaceutical substances)
29	3006.70.0000	Non-PPE medical consumables and hospital supplies	Gel preparations for use in human and veterinary medicine as lubricant for operations or physical exams, as coupling agent between the body and medical instruments
30	3401.11.5000	Non-PPE medical consumables and hospital supplies	Soap and other organic surface-active products, for toilet use, in bars, cakes, molded pieces, and paper, etc. impregnated or coated with soap or detergent
31	3401.19.0000	Non-PPE medical consumables and hospital supplies	Soap and other organic surface-active products, not for toilet use, in bars, cakes, molded pieces, and paper, etc. impregnated or coated with soap or detergent
32	3401.20.0000	Non-PPE medical consumables and hospital supplies	Soap in other forms
33	3808.94.1000	Disinfectants and sterilization products	Disinfectants containing any aromatic or modified aromatic disinfectant
34	3808.94.5000	Disinfectants and sterilization products	Disinfectants, not elsewhere specified or included
35	3821.00.0000	COVID-19 test kits/testing instruments	Prepared culture media for development of microorganisms
36	3822.00.1090	COVID-19 test kits/testing instruments	Composite diagnostic or laboratory reagents other than those of heading 3002 or 3006, containing antigens or antisera, not elsewhere specified or included
37	3822.00.5090	COVID-19 test kits/testing instruments	Composite diagnostic or laboratory reagents other than those of heading 3002 or 3006, not elsewhere specified or included
38	3822.00.6000	COVID-19 test kits/testing instruments	Certified reference materials as defined in note 2 to chapter 38
39	3824.99.9295	Disinfectants and sterilization products	Chemical products and preparations and residual products of the chemical or allied industries, not elsewhere specified or included
40	3824.99.9297	Disinfectants and sterilization products	Chemical products and preparations and residual products of the chemical or allied industries, not elsewhere specified or included
41	3923.21.0095	Non-PPE medical consumables and hospital supplies	Sacks and bags (including cones) of polymers of ethylene, not elsewhere specified or included
42	3923.29.0000	Non-PPE medical consumables and hospital supplies	Sacks and bags (including cones) of other plastics
43	3926.20.1010	Personal protective equipment	Gloves, seamless, surgical and medical, of plastic
44	3926.20.1020	Personal protective equipment	Gloves, seamless, except surgical and medical, disposable, of plastic
45	3926.20.9010	Personal protective equipment	Aprons, of plastic
46	3926.20.9050	Personal protective equipment	Articles of apparel and clothing accessories, of plastic, not elsewhere specified or included
47	3926.90.9910	Non-PPE medical consumables and hospital supplies	Laboratory ware
48	3926.90.9990	Non-PPE medical consumables and hospital supplies	Other articles of plastic, not elsewhere specified or included

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level			
Record ID	HTS-10	Category for subset of COVID-19 related goods in the HTS-10	HTS-10 statistical reporting number description
49	3926.90.9996	Non-PPE medical consumables and hospital supplies	Other articles of plastic, not elsewhere specified or included
50	4015.11.0110	Personal protective equipment	Surgical gloves, of natural rubber, other than hard rubber
51	4015.11.0150	Personal protective equipment	Surgical gloves, of vulcanized rubber other than hard rubber, not elsewhere specified or included
52	4015.19.0510	Personal protective equipment	Medical gloves, mittens and mitts (except surgical) of natural rubber, other than hard rubber
53	4015.19.0550	Personal protective equipment	Medical gloves, of vulcanized rubber other than hard rubber, not elsewhere specified or included
54	4015.19.1010	Personal protective equipment	Seamless, disposable gloves, of vulcanized rubber other than hard rubber
55	4015.90.0010	Personal protective equipment	Aprons, of vulcanized rubber other hard rubber
56	4015.90.0050	Personal protective equipment	Articles of apparel and clothing accessories, excluding aprons, for all purposes, of vulcanized rubber other than hard rubber, not elsewhere specified or included
57	4818.50.0000	Personal protective equipment	Articles of apparel and clothing accessories of paper pulp, paper, cellulose wadding or webs of cellulose fibers
58	4818.90.0000	Non-PPE medical consumables and hospital supplies	Bed sheets and similar household or hospital articles of paper pulp, paper, cellulose wadding or webs of cellulose fibers, not elsewhere specified or included
59	6116.10.6500	Personal protective equipment	Other gloves, knitted or crocheted, containing less than 50 percent by weight of cotton, man-made fibers or other textile fibers, or any combination thereof, no fourchettes, impregnated
60	6210.10.2000	Personal protective equipment	Garments, made up of fabrics of heading 5602 or 5603: of fabrics formed on a base of paper or covered or lined with paper
61	6210.10.5000	Personal protective equipment	Garments, made up of fabrics of heading 5602 or 5603: nonwoven disposable apparel designed for use in hospitals, clinics, laboratories and other areas
62	6210.10.9010	Personal protective equipment	Garments, made up of fabrics of heading 5602 or 5603: coveralls and overalls, not knitted, of impregnated fabric
63	6210.10.9040	Personal protective equipment	Garments, made up of fabrics of heading 5602 or 5603: not knit felt and non-woven fabric, except coveralls and overalls, of impregnated fabric
64	6210.50.3500	Personal protective equipment	Women's or girls' not knit man-made fiber other garments, impregnated fabric, underlying fabric completely obscured by coating
65	6210.50.7500	Personal protective equipment	Women's or girls' not knit other than man-made fibers other garments, impregnated fabric, underlying fabric completely obscured by coating, not elsewhere specified or included
66	6216.00.5420	Personal protective equipment	Gloves, mittens and mitts: of man-made fibers: no fourchettes, sidewalls, less than 36 percent of wool or fine animal hair
67	6307.90.6090	Non-PPE medical consumables and hospital supplies	Other made up articles, including dress patterns: surgical drapes, of fabric formed on a base of paper or covered with paper, other
68	6307.90.6800	Non-PPE medical consumables and hospital supplies	Other made up articles, including dress patterns: surgical drapes of spunlaced or bonded fiber fabric disposable surgical drapes of man-made fibers
69	6307.90.7200	Non-PPE medical consumables and hospital supplies	Other made up articles, including dress patterns: surgical drapes, not elsewhere specified or included, not spunlaced or bonded fiber fabric
70	6307.90.8910	Non-PPE medical consumables and hospital supplies	Surgical towels, other made-up articles, including dress patterns

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level			
Record ID	HTS-10	Category for subset of COVID-19 related goods in the HTS-10	HTS-10 statistical reporting number description
71	6307.90.9889	Personal protective equipment	Other made-up articles, not elsewhere specified or included
72	6505.00.0100	Personal protective equipment	Hair-nets, any material, whether or not lined or trimmed
73	6505.00.8015	Personal protective equipment	Nonwoven disposable headgear without peaks or visors of manmade fibers
74	6505.00.9089	Personal protective equipment	Hats and other headgear, knitted or crocheted, or made up of lace, felt or other textile fabric, in the piece, whether or not lined or trimmed, not elsewhere specified or included
75	7311.00.0090	Other	Containers for compressed or liquefied gas, iron or steel, not certified or exempted from safety requirements
76	7324.90.0000	Medical imaging, diagnostic, and other equipment	Other sanitary ware and parts, of iron or steel (not baths, not sinks or wash basins of stainless steel)
77	7613.00.0000	Other	Aluminum containers for compressed or liquefied gas
78	8419.20.0010	Disinfectants and sterilization products	Medical or surgical sterilizers
79	8419.20.0020	Disinfectants and sterilization products	Laboratory sterilizers
80	8421.39.8040	Other	Gas separation equipment
81	8705.90.0000	Other	Special purpose vehicles, not elsewhere specified or included
82	8713.10.0000	Other	Invalid carriages, not mechanically propelled
83	8713.90.0030	Other	Invalid carriages, three-wheeled, motorized or otherwise mechanically propelled
84	8713.90.0060	Other	Invalid carriages, motorized or otherwise mechanically propelled, not elsewhere specified or included
85	9004.90.0000	Personal protective equipment	Spectacles, goggles and the like, corrective, protective, not elsewhere specified or included
86	9018.11.3000	Medical imaging, diagnostic, and other equipment	Electrocardiographs
87	9018.11.6000	Medical imaging, diagnostic, and other equipment	Printed circuit assemblies for electrocardiographs
88	9018.11.9000	Medical imaging, diagnostic, and other equipment	Parts and accessories for electrocardiographs, not elsewhere specified or included
89	9018.12.0000	Medical imaging, diagnostic, and other equipment	Ultrasonic scanning apparatus
90	9018.19.4000	Medical imaging, diagnostic, and other equipment	Electro-diagnostic apparatus for functional exploratory examination, and parts and accessories thereof
91	9018.19.5500	Medical imaging, diagnostic, and other equipment	Patient monitoring systems
92	9018.19.7500	Medical imaging, diagnostic, and other equipment	Printed circuit assemblies for parameter acquisition modules
93	9018.31.0040	Non-PPE medical consumables and hospital supplies	Hypodermic syringes, with or without their needles
94	9018.31.0080	Non-PPE medical consumables and hospital supplies	Other syringes, with or without their needles, not elsewhere specified or included
95	9018.31.0090	Medical imaging, diagnostic, and other equipment	Parts and accessories for syringes, with or without their needles
96	9018.32.0000	Non-PPE medical consumables and hospital supplies	Tubular metal needles and needles for sutures and parts and accessories thereof
97	9018.39.0020	Medical imaging, diagnostic, and other equipment	Rubber catheters
98	9018.39.0040	Oxygen therapy equipment and pulse oximeters	Bougies, drains and sondes, and parts and accessories
99	9018.39.0050	Medical imaging, diagnostic, and other equipment	Cannulae and the like and part and accessories
100	9018.90.3000	Medical imaging, diagnostic, and other equipment	Anesthetic instruments and appliances and parts and accessories
101	9018.90.7580	Medical imaging, diagnostic, and other equipment	Electro-medical instruments and appliances and parts and accessories, not elsewhere specified or included

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level			
Record ID	HTS-10	Category for subset of COVID-19 related goods in the HTS-10	HTS-10 statistical reporting number description
102	9018.90.8000	Medical imaging, diagnostic, and other equipment	Other instruments and appliances used in medical, surgical, dental or veterinary sciences, not elsewhere specified or included
103	9019.20.0000	Oxygen therapy equipment and pulse oximeters	Ozone therapy, oxygen therapy, aerosol therapy, artificial respiration or other therapeutic respiration apparatus; parts and accessories
104	9020.00.6000	Personal protective equipment	Other breathing appliances and gas masks
105	9020.00.9000	Personal protective equipment	Parts and accessories for breathing appliances and gas masks
106	9022.12.0000	Medical imaging, diagnostic, and other equipment	Computed tomography apparatus
107	9025.19.8040	Medical imaging, diagnostic, and other equipment	Clinical thermometers, not combined with other instruments, not elsewhere specified or included
108	9025.19.8080	Medical imaging, diagnostic, and other equipment	Thermometers, not combined with other instruments, not elsewhere specified or included
109	9026.80.4000	Oxygen therapy equipment and pulse oximeters	Heat meters incorporating liquid supply meters, and anemometers
110	9027.80.2500	COVID-19 test kits/testing instruments	Nuclear magnetic resonances instruments and apparatus (except those of heading 9018)
111	9027.80.4530	Medical imaging, diagnostic, and other equipment	Electrical chemical analysis instrument and apparatus, except using optical radiations
112	9028.20.0000	Medical imaging, diagnostic, and other equipment	Liquid meters
113	9402.90.0010	Other	Hospital beds
114	9402.90.0020	Other	Medical, surgical, dental or veterinary furniture, not elsewhere specified or included

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level						
Record ID	HTS-10	Example of COVID-19 related product within the HTS-10	Column 1-general duty rate (normal trade relations) (2020)	Column 1-special duty rate (2020)	Additional duty rate (Section 301, China)	Section 301 duty exclusions
1	2207.10.6090	Alcohol solution (at least 80 percent alcoholic strength)	2.5%	Free (A+, AU, BH, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG) See 9822.09.22-9822.09.24 (PA)	25%	None
2	2208.90.8000	Alcohol solution (less than 80 percent alcoholic strength)	21.1 cents/pf.liter	Free (A, AU, BH, CA, CL, CO, D, E, IL, KR, MA, MX, OM, P, PA, PE, SG) 9.3 cents/pf.liter (JO)		None
3	2804.40.0000	Medical oxygen	3.7%	Free (A, AU, BH, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG)	25%	None
4	2847.00.0000	Hydrogen peroxide in bulk	3.7%	Free (A, AU, BH, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG)	25%	None
5	3002.13.0000	Unmixed bulk immunologicals (medicines that trigger the immune system)	Free			None
6	3002.14.0000	Mixed bulk immunologicals (medicines that trigger the immune system)	Free			None
7	3002.15.0000	Dosage form or packaged immunologicals (medicines that trigger the immune system); diagnostic reagents based on immunological reactions	Free			None
8	3002.19.0000	Other immunologicals (medicines that trigger the immune system)	Free			None
9	3002.20.0000	Human vaccines	Free			None
10	3003.10.0000	Unpackaged bulk pharmaceuticals consisting of mixed antibiotics of penicillins, streptomycin, or their derivatives	Free			None
11	3003.20.0000	Unpackaged bulk pharmaceuticals consisting of mixed antibiotics other than penicillins, streptomycin, or their derivatives	Free			None
12	3003.60.0000	Unpackaged bulk pharmaceuticals consisting of mixtures containing certain antimalarial active principles	Free			None
13	3003.90.0100	Unpackaged bulk pharmaceuticals consisting of mixtures of other products not specified above	Free			None
14	3004.10.1020	Dosage form or packaged medicaments containing penicillin G salts singles	Free			None
15	3004.10.1045	Dosage form or packaged medicaments containing penicillin G salts in combinations	Free			None
16	3004.10.5045	Dosage form or packaged medicaments containing streptomycin and its derivatives in combinations	Free			None
17	3004.10.5060	Dosage form or packaged medicaments containing streptomycin and its derivatives other than in combinations	Free			None
18	3004.20.0020	Dosage form or packaged medicaments containing erythromycin, singles or in combination with other antibiotics	Free			None
19	3004.20.0030	Dosage form or packaged medicaments containing tetracycline, singles or in combination with other antibiotics	Free			None
20	3004.20.0060	Dosage form or packaged medicaments other antibiotics, singles or in combination	Free			None
21	3004.49.0060	Dosage form or packaged medicaments primarily affecting the eyes, ears or respiratory system	Free			None
22	3004.60.0000	Dosage form or packaged medicaments containing certain antimalarial active principles	Free			None
23	3004.90.1000	Dosage form or packaged medicaments containing antigens or hyaluronic acid or its sodium salt	Free			None
24	3004.90.9210	Hydrogen peroxide presented as a medicament	Free			None

85	9004.90.0000	Protective goggles	2.5%	Free (A, AU, BH, CA, CL, CO, D, E, IL, JO, JP, KR, MA, MX, OM, P, PA, PE, SG)	7.5%	Part
86	9018.11.3000	Electrocardiograph	Free		25%	None
87	9018.11.6000	Printed circuit assemblies for electrocardiographs	Free		25%	None
88	9018.11.9000	Parts and accessories of electrocardiographs, other than printed circuit assemblies	Free		25%	Part
89	9018.12.0000	Ultrasound machines	Free		25%	Part
90	9018.19.4000	Laryngoscopes	Free		25%	None
91	9018.19.5500	Multiparametric Patient Monitoring devices; pulse oximeters	Free		25%	None
92	9018.19.7500	Printed circuit assemblies for patient monitoring systems	Free		25%	None
93	9018.31.0040	Hypodermic syringes	Free			None
94	9018.31.0080	Other syringes	Free			None
95	9018.31.0090	Parts and accessories for syringes with or without needles	Free			None
96	9018.32.0000	Tubular metal needles and needles for sutures	Free			None
97	9018.39.0020	Rubber catheters (a flexible tube inserted through a narrow opening into a body cavity)	Free			None
98	9018.39.0040	Intubation equipment; parts and accessories	Free			None
99	9018.39.0050	Cannulae (a thin tube inserted into a vein or body cavity) and related parts	Free			None
100	9018.90.3000	Stethoscopes; Magill intubation forceps; intubation kits	Free		25%	Part
101	9018.90.7580	Medical suction pumps	Free		25%	Part

Table 1: COVID-19 related goods duty rate and imports at the HTS 10-digit level						
Record ID	HTS-10	Example of COVID-19 related product within the HTS-10	Column 1-general duty rate (normal trade relations) (2020)	Column 1-special duty rate (2020)	Additional duty rate (Section 301, China)	Section 301 duty exclusions
102	9018.90.8000	Medical drills for vascular access; Infusion pump, with or without accessories	Free			None
103	9019.20.0000	Medical ventilators (artificial respiration apparatus); extracorporeal membrane oxygenation (ECMO); Continuous Positive Airway Pressure (CPAP) units; bilevel positive airway pressure (BiPap or BPap) units; oxygen concentrators; oxygen humidifiers for oxygen therapy applications; oxygen delivery devices to supply oxygen from the device to the patient; flow splitters	Free			None
104	9020.00.6000	Gas masks with mechanical parts or replaceable filters for protection against biological agents; masks incorporating eye protection or facial shields	2.5%	Free (A, AU, BH, C, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG)		None
105	9020.00.9000	Parts of gas masks and masks incorporating eye protection or facial shields	2.5%	Free (A, AU, BH, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG)		None
106	9022.12.0000	Computed tomography (CT) scanners	Free		25%	Part
107	9025.19.8040	Infrared thermometers (clinical)	Free		25%	Part
108	9025.19.8080	Infrared thermometers (other)	Free		25%	Whole
109	9026.80.4000	Flowmeter, Thorpe tube for oxygen 0-15L/min	Free		25%	None
110	9027.80.2500	COVID-19 diagnostic test instruments and apparatus	Free		25%	None
111	9027.80.4530	Colorimetric end tidal CO2 detector	Free		25%	Part
112	9028.20.0000	Electronic drop counter, IV fluids	16 cents each + 2.5%	Free (A, AU, BH, CA, CL, CO, D, E, IL, JO, KR, MA, MX, OM, P, PA, PE, SG)	25%	Part
113	9402.90.0010	Hospital beds	Free			None
114	9402.90.0020	Medical or surgical furniture	Free			None

Table 2: U.S. imports by county at the HTS 10-digit level		Categories and examples are in hidden columns C and E. These can be used for filtering and sorting, but caution should be used in attributing import values for a country to COVID-19 products.	Note: Filtering on a country only lists HTS where it was one of the top 5 import sources.	Notes: Data include both COVID-19 related and other goods. Data are imports for consumption. ⁽¹⁾ HTS-10 statistical reporting number did not exist in this year.		
Record ID	HTS-10	HTS-10 statistical reporting number description	Country Name	2017 imports (\$)	2018 imports (\$)	2019 imports (\$)

Table 2: U.S. imports by county at the HTS 10-digit level		Categories and examples are in hidden columns C and E. These can be used for filtering and sorting, but caution should be used in attributing import values for a country to COVID-19 products.	Note: Filtering on a country only lists HTS where it was one of the top 5 import sources.	Notes: Data include both COVID-19 related and other goods. Data are imports for consumption. ⁽¹⁾ HTS-10 statistical reporting number did not exist in this year.		
Record ID	HTS-10	HTS-10 statistical reporting number description	Country Name	2017 imports (\$)	2018 imports (\$)	2019 imports (\$)

Table 2: U.S. imports by county at the HTS 10-digit level		Categories and examples are in hidden columns C and E. These can be used for filtering and sorting, but caution should be used in attributing import values for a country to COVID-19 products.	Note: Filtering on a country only lists HTS where it was one of the top 5 import sources.	Notes: Data include both COVID-19 related and other goods. Data are imports for consumption. ⁽¹⁾ HTS-10 statistical reporting number did not exist in this year.

Table 3: Products listed in table 1 that are excluded from Section 301 duties					
Record ID	HTS-10	Exclusion Published	Exclusion Effective	Exclusion Expiration	Description
1	3401.11.5000	1/6/2020	9/24/2018	8/7/2020	Nonwoven wipes, impregnated with organic surfactant preparations of a kind used to remove hair-color stains from the skin, put up for retail sale in canisters each containing 100 wipes
2	3401.19.0000	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
3	3923.21.0095	3/16/2020	9/24/2018	8/7/2020	Whole HTS 10-digit statistical reporting number excluded
4	3923.29.0000	2/5/2020	9/24/2018	8/7/2020	Bags of plastic certified by the Biodegradable Products Institute as being compostable, each measuring 43 cm or more but not more than 107 cm in width and 45 cm or more but not more than 122 cm in length, of sheet or film measuring 0.02 mm or more but not more than 0.056 mm in thickness
5	3926.20.9050	3/16/2020	9/24/2018	8/7/2020	Whole HTS 10-digit statistical reporting number excluded
6	3926.90.9910	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
7	3926.90.9990	3/17/2020	9/1/2019	9/1/2020	Bowls of molded plastics, with clips for retaining guide wires during surgical procedures
8	3926.90.9990	3/17/2020	9/1/2019	9/1/2020	Disposable graduated medicine dispensing cups of plastics
9	3926.90.9990	3/17/2020	9/1/2019	9/1/2020	Pads of foam plastics, with hook and loop fastener straps, integrated arm protectors, and accessory headrest, body straps, lift sheets, hand grips and face masks, of a kind used for positioning patients during medical procedures
10	3926.90.9990	3/17/2020	9/1/2019	9/1/2020	Single-use sterile drapes and covers of plastics, of a kind used to protect the sterile field in surgical operating rooms
11	3926.90.9990	3/17/2020	9/1/2019	9/1/2020	Sterile decanters of polystyrene plastics, each of a kind used to transfer aseptic fluids or medication to and from sterile bags, vials or glass containers
12	3926.90.9990	3/31/2020	9/1/2019	9/1/2020	Refillable dispensers of plastics, designed for mounting on a vertical wall, of a kind used to store and dispense emesis containment bags in medical settings
13	3926.90.9990	3/31/2020	9/1/2019	9/1/2020	Sterile urology drain bags of plastics, designed to fit over a urology table extension, with a flap extension that provides sterile separation of the patient from the table surface and directs fluids into and through a filter at the top of an attached drain hose leading to a collection container
14	3926.90.9990	3/31/2020	9/1/2019	9/1/2020	Coverings, of plastics, designed to fit over wound sites or casts thereby forming a protective seal for keeping the covered area dry and debris free while showering or bathing
15	3926.90.9990	3/31/2020	9/1/2019	9/1/2020	Pouches of plastics, of a kind used with manually operated pill or tablet crushers to capture the powdered medicaments
16	4015.19.0510	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
17	4015.19.0550	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
18	4015.19.1010	3/16/2020	9/24/2018	8/7/2020	Whole HTS 10-digit statistical reporting number excluded
19	4015.19.1010	2/5/2020	9/24/2018	8/7/2020	Seamless disposable gloves of acrylonitrile butadiene rubber, other than for surgical or medical use
20	4015.19.1010	2/5/2020	9/24/2018	8/7/2020	Seamless disposable gloves of natural rubber latex, other than for surgical or medical use
21	4818.90.0000	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
22	6210.10.5000	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded
23	6307.90.6090	3/10/2020	9/1/2019	9/1/2020	Whole HTS 10-digit statistical reporting number excluded

Table 3: Products listed in table 1 that are excluded from Section 301 duties					
Record ID	HTS-10	Exclusion Published	Exclusion Effective	Exclusion Expiration	Description
25	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Cold packs consisting of a single-use, instant, endothermic chemical reaction cold pack combined with a textile exterior lining
26	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Disposable shoe and boot covers of man-made fiber fabrics
27	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Eye compresses, each consisting of a fabric cover filled with silica or gel beads, with or without a hook-and-loop fastener strap
28	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Face masks, single-use, of textile fabrics
29	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Gel pads of textile materials, each with removable fabric sleeves, in the shape of hearts, circles or quadrants
30	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Hot packs of textile material, single-use (exothermic chemical reaction)
31	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Laparotomy sponges of cotton
32	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Patient restraint or safety straps of textile materials, with hook-and-loop or ladder lock fasteners
33	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Single-use blood pressure cuff sleeves of textile materials
34	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Single-use medical masks of textile material
35	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Single-use stethoscope covers
36	6307.90.9889	3/17/2020	9/1/2019	9/1/2020	Woven gauze sponges of cotton in square or rectangular sizes
37	6307.90.9889	3/31/2020	9/1/2019	9/1/2020	Ice bags of textile materials, for treating injuries or soreness, each refillable
38	6307.90.9889	3/31/2020	9/1/2019	9/1/2020	Identification wristbands of textile materials, each with a blank panel
39	6505.00.8015	2/20/2020	9/24/2018	8/7/2020	Whole HTS 10-digit statistical reporting number excluded
40	7324.90.0000	11/13/2019	9/24/2018	8/7/2020	Sinks, of cast iron enameled with porcelain
41	7324.90.0000	3/26/2020	9/24/2018	8/7/2020	Parts of showers, comprising shower wand adjustable slide bars, of stainless steel, with or without finishes of other metals, each weighing 0.44 kg or less, measuring at least 48.3 cm but not more than 91.5 cm in length and at least 1.9 cm but not more than 2.6 cm in diameter
42	7324.90.0000	3/26/2020	9/24/2018	8/7/2020	Shower arms of stainless steel, with or without finishes of other metals, threaded at both ends, each weighing not less than 0.08 kg but not more than 0.35 kg, measuring at least 15 cm but not more than 64 cm in length and not more than 2 cm in diameter
43	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Chlorine absorption process modules designed to dissolve chlorine gas, produced through the interaction of salt water and hydrochloric acid, in a liquid, measuring not over 35 meters by 23 meters by 26 meters
44	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Gas treatment process modules, each containing a methylenediphenyl diamine (MDA) vent scrubber and nitrogen gas stripping column, designed to use aniline to filter MDA from the nitrogen gas stripping column, measuring not over 26 meters by 21 meters by 17 meters
45	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Gas treatment process modules, each containing a reactor vent scrubber designed to scrub evaporated phosgenation reaction liquid with chlorobenzene, measuring not over 26 meters by 22 meters by 22 meters
46	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Gas treatment process modules, each containing scrubbers and decomposers designed to remove hazardous gases on the surface of packing in packed columns, measuring not over 21 meters by 17 meters by 36 meters
47	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Methylene diphenyl diisocyanate (MDI) isomers separation process modules designed to purify MDI gas, measuring not over 24 meters by 21 meters by 22 meters

Table 3: Products listed in table 1 that are excluded from Section 301 duties					
Record ID	HTS-10	Exclusion Published	Exclusion Effective	Exclusion Expiration	Description
48	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Modules, each consisting of a carbon dioxide (CO2) stripper and heat exchangers designed to remove CO2 from solutions to produce 1-Ethyl-3-(3-dimethylaminopropyl) carbodiimide (EDC), measuring not over 20 meters by 20 meters by 17 meters
49	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Process modules containing activated carbon absorbers designed to absorb volatile organic compounds, measuring not over 21 meters by 20 meters by 15 meters
50	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Thermal oxidizer modules (TOx) designed to destroy hazardous compounds in water vapors, gases and liquids produced during the ethylene dichloride (EDC) and methylene diphenyl isocyanate (MDI) production processes, containing a combustion chamber and scrubber for conversion of nitrogen oxide (NOX) to nitrogen (N2), measuring not over 35 meters by 20 meters by 14 meters
51	8421.39.8040	10/2/2019	7/6/2018	10/2/2020	Thermal oxidizer modules (TOx) designed to destroy hazardous compounds in water vapors, gases and liquids produced during the ethylene dichloride (EDC) and methylene diphenyl isocyanate (MDI) production processes, containing a combustion chamber and scrubber for conversion of nitrogen oxide (NOX) to nitrogen (N2), measuring not over 31 meters by 24 meters by 20 meters
52	9004.90.0000	3/17/2020	9/1/2019	9/1/2020	Protective articles
53	9018.11.9000	9/20/2019	7/6/2018	9/20/2020	Disposable electrocardiograph (ECG) electrodes
54	9018.12.0000	7/9/2019	7/6/2018	7/9/2020	Veterinary ultrasound device with black-and-white image quality used as a medical diagnostic tool
55	9018.12.0000	9/20/2019	7/6/2018	9/20/2020	Portable ultrasonic scanner consoles, each weighing less than 4 kg, presented with or without transducer (described in statistical reporting number
56	9018.90.3000	9/20/2019	7/6/2018	9/20/2020	Anesthesia masks
57	9018.90.7580	9/20/2019	7/6/2018	9/20/2020	Printed circuit board assemblies designed for use in displaying operational performance of medical infusion equipment
58	9018.90.7580	3/25/2019	7/6/2018	Expired on 3/25/2020	Restraint packs designed for use with chest compressors, each containing one torso restraint, consisting of a cotton strap which fastens with hook and loop fasteners to the compressor, and one cover for a head stabilizer
59	9022.12.0000	10/2/2019	7/6/2018	10/2/2020	Combined positron emission tomography/computed tomography (PET/CT) scanners which utilize multiple PET gantries (frames) on a common base
60	9025.19.8040	7/31/2019	8/23/2018	7/31/2020	Digital clinical thermometers, valued not over \$11 each
61	9025.19.8040	10/2/2019	8/23/2018	10/2/2020	Digital clinical thermometers, valued not over \$11 each

Congress of the United States
Washington, DC 20515

April 6, 2020

The Honorable David Johanson
Chairman
U.S. International Trade Commission
500 E Street, SW
Washington, DC 20436

Dear Chairman Johanson:

Our nation is currently facing an urgent public health crisis on a scale that we have not encountered in over a century. As we grapple with the challenges presented by the novel coronavirus, we are keenly aware that our challenges are being severely exacerbated by disruptions and deficiencies in our supply of equipment, inputs, and substances needed for treating and otherwise responding to the COVID-19 pandemic.

In light of the urgency of our nation's needs, as the Chairs of the House Committee on Ways and Means and the Senate Committee on Finance, the committees with jurisdiction over international trade, we are writing today to request that the U.S. International Trade Commission (Commission) conduct an investigation and prepare a report under section 332(g) of the Tariff Act of 1930 that identifies products that may be needed to respond to the COVID-19 pandemic.

On March 20, 2020, the Office of the U.S. Trade Representative (USTR) established a process to receive and consider comments for provisional modifications to tariffs imposed on goods that may assist in the public health and clinical response to the COVID-19 pandemic. In view of the Commission's knowledge in trade and tariff matters, we ask that the Commission provide a report to the Committees and the USTR that identifies imported goods related to the response to COVID-19, their source countries, tariff classifications, and applicable rates of duty so as to assist the Committees and USTR in proposing or taking appropriate and responsive actions.

For each product that the Commission so identifies, we ask that the Commission provide:

- (1) the 10-digit HTS code for the article;
- (2) its legal description;
- (3) general duty rate;
- (4) any special or additional rates of duty imposed on the article, the dates on which the rates were imposed, and the authorities under which they were imposed;

- (5) whether any such duties have been suspended and, if so, the date of suspension as well as how long the suspension is scheduled to last;
- (6) the total rate of duty imposed on such article, including any special or additional rate of duty; and
- (7) the major countries of origin for each such article, and the import value of each such article from each country for the years 2017-2019.

To the extent practical, we ask that the electronic version of this report be provided in a format that allows the information to be sorted by the fields listed above. Please also include a “plain English” description or examples of products that fall within the identified HTS codes and citations to sources consulted in identifying the products.

Given the acute nature of the circumstances, we request that the Commission deliver its report as soon as possible, but no later than April 30, 2020. As we intend to make the report available to the public, please do not include confidential business information. Given that the COVID-19 pandemic is rapidly changing, we request that the Commission provide any relevant updated data runs on its website through June 30, 2020.

Your assistance in this matter is greatly appreciated.

Sincerely,

Richard E. Neal
Chairman
Committee on Ways and Means

Charles E. Grassley
Chairman
Committee on Finance

addresses the existence of any domestic inventory, any domestic operations, or any sales-related activity directed at the United States for each respondent against whom a cease and desist order is sought.

3. Please discuss any other basis upon which the Commission could enter a cease and desist order.

The statute requires the Commission to consider the effects of that remedy upon the public interest. The public interest factors the Commission will consider include the effect that an exclusion order and/or cease and desist orders would have on: (1) The public health and welfare, (2) competitive conditions in the U.S. economy, (3) U.S. production of articles that are like or directly competitive with those that are subject to investigation, and (4) U.S. consumers. The Commission is therefore interested in receiving written submissions that address the aforementioned public interest factors in the context of this investigation.

If the Commission orders some form of remedy, the U.S. Trade Representative, as delegated by the President, has 60 days to approve, disapprove, or take no action on the Commission's action. See Presidential Memorandum of July 21, 2005, 70 FR 43251 (July 26, 2005). During this period, the subject articles would be entitled to enter the United States under bond, in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is therefore interested in receiving submissions concerning the amount of the bond that should be imposed if a remedy is ordered.

Written Submissions: Parties to the investigation, interested government agencies, and any other interested parties are encouraged to file written submissions on the issues of remedy, the public interest and bonding. Such initial written submissions should include views on the recommended determination on remedy and bonding issued on August 12, 2019, by the ALJ.

In its initial written submission, Complainant is also requested to identify the form of the remedy sought and to submit proposed remedial orders for the Commission's consideration. Complainant is also requested to state the expiration date of the '324, '361, '430, and 'D426 patents, the HTSUS subheadings under which the accused articles are imported, and to supply identification information for all known importers of the accused products. Initial written submissions, including proposed remedial orders must be filed no later than the close of business on March 30, 2020. Reply submissions must be filed no later than the close of

business on April 6, 2020. No further submissions on these issues will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above and submit 8 true paper copies to the Office of the Secretary by noon the next day pursuant to section 210.4(f) of the Commission's Rules of Practice and Procedure (19 CFR 210.4(f)). Submissions should refer to the investigation number ("Inv. No. 337-TA-1124") in a prominent place on the cover page and/or the first page. (See Handbook for Electronic Filing Procedures, https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf). Persons with questions regarding filing should contact the Secretary (202-205-2000).

Any person desiring to submit a document to the Commission in confidence must request confidential treatment. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 201.6. Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. All information, including confidential business information and documents for which confidential treatment is properly sought, submitted to the Commission for purposes of this investigation may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements. All non-confidential written submissions will be available for public inspection at the Office of the Secretary and on EDIS.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in Part 210 of the Commission's Rules of Practice and Procedure, 19 CFR part 210.

By order of the Commission.

Issued: March 11, 2020.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-576]

COVID-19 Related Goods: U.S. Imports and Tariffs; Institution of Investigation

AGENCY: United States International Trade Commission.

ACTION: Notice of investigation.

SUMMARY: Following receipt on April 7, 2020, of a request from the House Committee on Ways and Means and the Senate Committee on Finance (the Committees), under section 332(g) of the Tariff Act of 1930, the U.S. International Trade Commission (Commission) instituted Investigation No. 332-576, *COVID-19 Related Goods: U.S. Imports and Tariffs*, for the purpose of providing a report that identifies imported goods related to the response to COVID-19, their source countries, tariff classifications, and applicable rates of duty.

DATES:

April 30, 2020: Date by which the Commission will transmit the report to the Committees.

June 30, 2020: Date through which the Commission will provide updated data runs to the Committees.

ADDRESSES: All Commission offices, including the Commission's hearing rooms, are located in the U.S. International Trade Commission Building, 500 E Street SW, Washington, DC. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

FOR FURTHER INFORMATION CONTACT: Project Leader Mihir Torsekar (202-205-3350 or Mihir.Torsekar@usitc.gov) or Project Leader Andrew David (202-205-3368 or Andrew.David@usitc.gov) for information specific to this investigation. For information on the legal aspects of this investigation, contact William Gearhart of the Commission's Office of the General Counsel (202-205-3091 or william.gearhart@usitc.gov). The media should contact Margaret O'Laughlin, Office of External Relations (202-205-1819 or margaret.olaughlin@usitc.gov). Hearing-impaired individuals may obtain information on this matter by contacting the Commission's TDD terminal at 202-205-1810. General

information concerning the Commission may also be obtained by accessing its website (<https://www.usitc.gov>).

Background: As requested by the Committees, the Commission will conduct an investigation and prepare a report that, to the extent practical, identifies imported goods related to the response to COVID-19, their source countries, tariff classifications, and applicable rates of duty. For each product that the Commission so identifies, the Commission will seek to provide:

1. The 10-digit HTS code for the article;
2. its legal description;
3. general duty rate;
4. any special or additional rates of duty imposed on the article, the dates on which the rates were imposed, and the authorities under which they were imposed;
5. whether any such duties have been suspended and, if so, the date of suspension as well as how long the suspension is scheduled to last;
6. the total rate of duty imposed on such article, including any special or additional rate of duty; and
7. the major countries of origin for each such article, and the import value of each such article from each country for the years 2017–2019.

The Committees asked that the Commission deliver the report as soon as possible, but no later than April 30, 2020. The Committees further requested that the Commission provide any relevant updated data runs on its website through June 30, 2020. The Committees stated that they intend to make the Commission's report available to the public and asked that the report not include any confidential business information.

Confidential Business Information. As requested by the Committees, the Commission will not include any confidential business information in the report that it sends to the Committees. However, all information, including confidential business information, submitted in this investigation may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel (a) for cybersecurity purposes or (b) in monitoring user activity on U.S. government classified networks. The Commission will not otherwise disclose

any confidential business information in a way that would reveal the operations of the firm supplying the information.

By order of the Commission.
Issued: April 13, 2020.

William Bishop,
Supervisory Hearings and Information Officer.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-574]

Renewable Electricity: Potential Economic Effects of Increased Commitments in Massachusetts; Notice of Postponement of Public Hearing, Dates for Filing Written Submissions

AGENCY: United States International Trade Commission.

ACTION: Notice of postponement of public hearing.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has postponed, to dates to be determined, the public hearing and the filing dates for written submissions in Investigation No. 332-574, *Renewable Electricity: Potential Economic Effects of Increased Commitments in Massachusetts* due to COVID-19.

SUPPLEMENTARY INFORMATION: The Commission published notice of institution of the above referenced investigation in the *Federal Register* on February 19, 2020 (85 FR 9479, February 19, 2020). In that notice, the Commission announced that it would hold a public hearing on May 7, 2020, and it also set dates by which requests to appear at the hearing, briefs, and other written submissions should be filed. However, due to COVID-19, the Commission has postponed the hearing to a date to be determined. The Commission will publish notice in the *Federal Register*, when circumstances permit, of a new date for the public hearing as well as new dates by which requests to appear at the hearing, briefs, and other written submissions should be filed. Pending publication of new dates, the Commission welcomes the filing of any written submissions relevant to this investigation. Such submissions must be filed in electronic form; the Commission cannot accept paper filings at this time.

FOR FURTHER INFORMATION CONTACT: Project Leader Diana Friedman (202-205-3433 or diana.friedman@usitc.gov)

or Deputy Project Leader Patricia Mueller (202-205-2599 or patricia.mueller@usitc.gov) for information specific to this investigation. For hearing-related information, contact Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2000. For information on the legal aspects of this investigation, contact William Gearhart of the Commission's Office of the General Counsel (202-205-3091 or william.gearhart@usitc.gov). The media should contact Margaret O'Laughlin, Office of External Relations (202-205-1819 or margaret.olaughlin@usitc.gov). Hearing-impaired individuals may obtain information on this matter by contacting the Commission's TDD terminal at 202-205-1810. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000.

By order of the Commission.
Issued: April 13, 2020.

Lisa Barton,
Secretary to the Commission.
